

Guilin

China

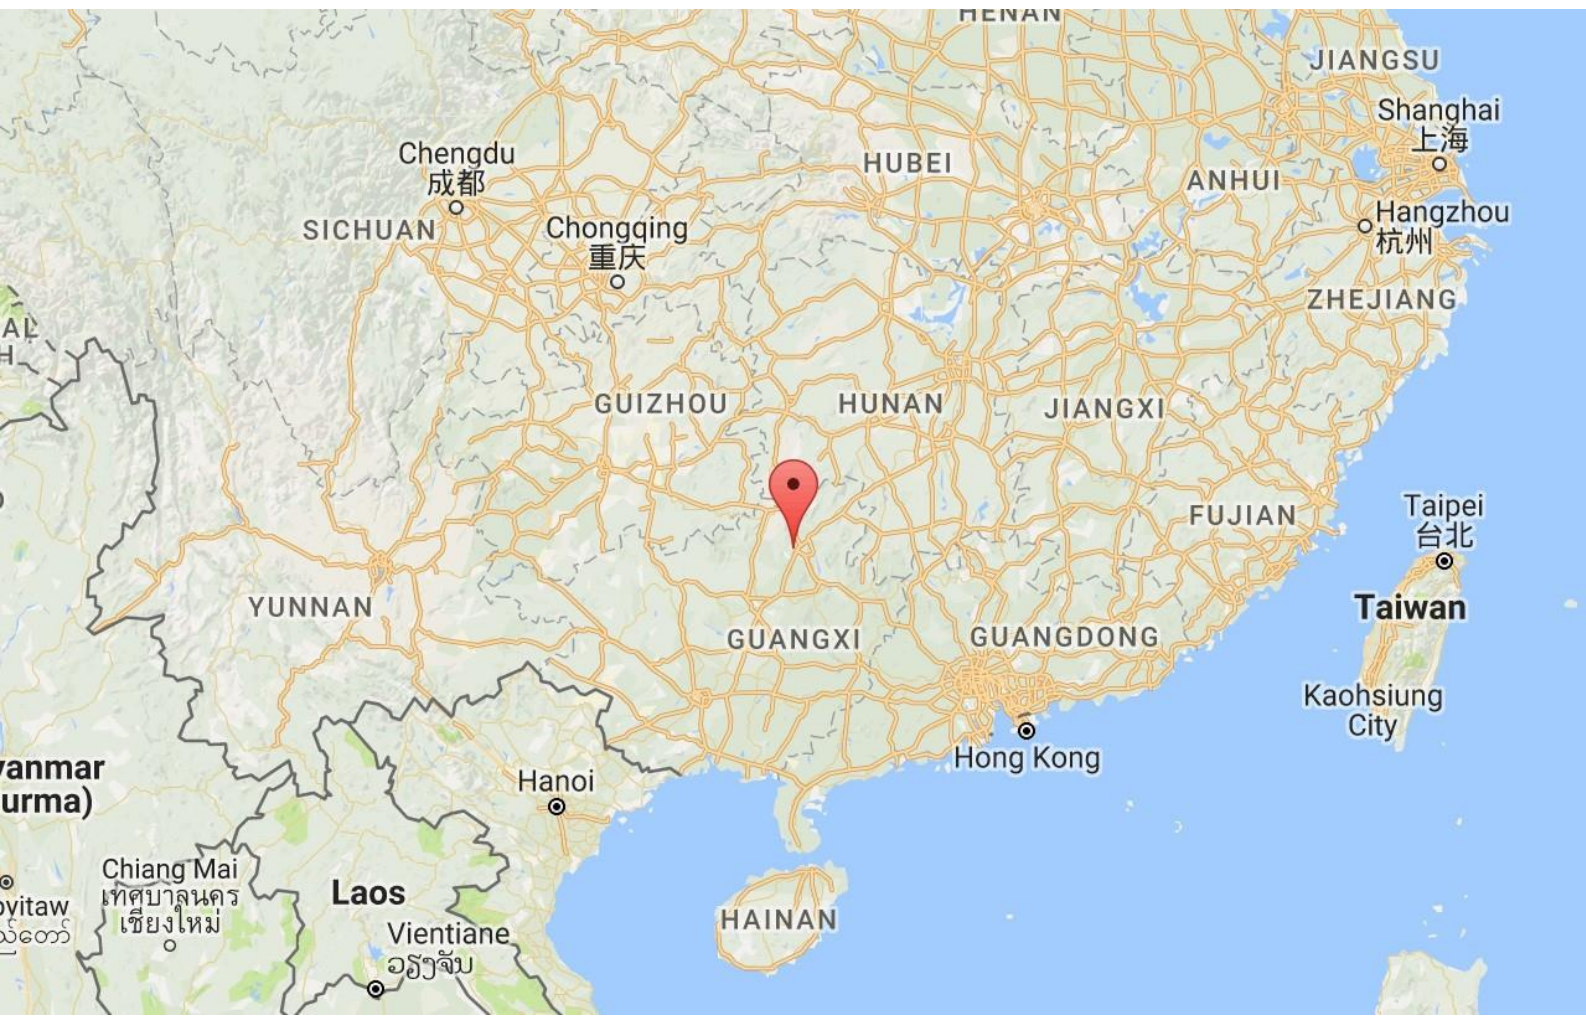

Guilin is a province in southern China known for its dramatic landscape of limestone karst. In the majestic shadow of its mountains, on the edge of an authentic, rustic village lies our center - a 260 year old building from the Qing dynasty. Its surroundings invite walking and hiking and offer a stunning view of the hills, as well as of locals farmers hard at work!

Guilin

(1) Exceptions: no meals on day of arrival, only 2 meals on weekends

(2) Drinking water, coffee and Chinese tea provided

Accommodation & Food

About the Accommodation

This accommodation has western style toilets, a bar with a variety of drinks, snacks, and food all set in a unique Chinese atmosphere.

Food Arrangements

We have our in-house chef busy making food everyday for you! Expect typical Chinese food with rice and noodles in Chinese dishes styles. Vegetarian food is also available upon request.

Facilities

Support

We have fully trained Chinese coordinators at our centre. They are bilingual (Chinese – including local dialect, and English). They too live as part of the family at the Centre and are there to run scheduled activities whilst also assisting those who want explore the area or undertake self-organised activities. They are there 24/7 to deal with any problems participants may have.

Shops

There is a small local shop which sells snacks on site, but to reach ATMs and bigger shops, it is a 30 minute bus journey into town.

Transportation

Our Centre is about 4 kilometres away from Lian Hua town. It is easy to catch a bus into town during the day – or to cycle. Gongcheng is the largest town nearby and is about 20 kilometers away. Once again there are frequent buses or shared taxis. Frequent buses also go from there to Yangshuo, 42 kilometres away.

Money

There are days where you will not have many opportunities to spend your money but food, drinks and snacks can all be purchased cheaply. Around 100 Yuan a week should be more than enough. You will however need much more if you are looking at 'extras', such as self-organised trips during the week (e.g. to the street barbecues in Gongcheng). Take note that the nearest ATM that accepts international bank or credit cards is half an hour away by car so if you have such plans, you should get cash out at the airport upon your arrival, or in Yangshuo while you are there.

Activities & Events

No scheduled activities outside the program.

Sights & Surroundings

There are so many wonderful sights and places to visit in this area. A guide book can tell you everything you could want to know, but here are a few ideas we recommend:

The Li River

This river spans 80km from Guilin to Yangshuo and is decorated with rolling hills, unique cliffs, caves and comfortable boats and should not be missed. Especially popular among Chinese tourists is a spot close to Yangshuo that is portrayed on the 20 Yuan bill.

Yangshuo

A picturesque city famous for its surrounding hills, rivers and bar streets. Lots of activities offered including rafting, biking, rock climbing, a stunning light show on Li River and much more. Make sure to spend at least one of your weekends here.

Seven Star Park

Famed for its rock formations, the park includes many different attractions including the Flower Bridge, Seven-Star Cave, Camel Hill and even a zoo!
